

OVERVIEW

Increase Your Farm's Productivity With 1 Touch

With Central Tire Inflation Systems.

4% YIELD INCREASE*

33% LESS SOIL PRESSURE*

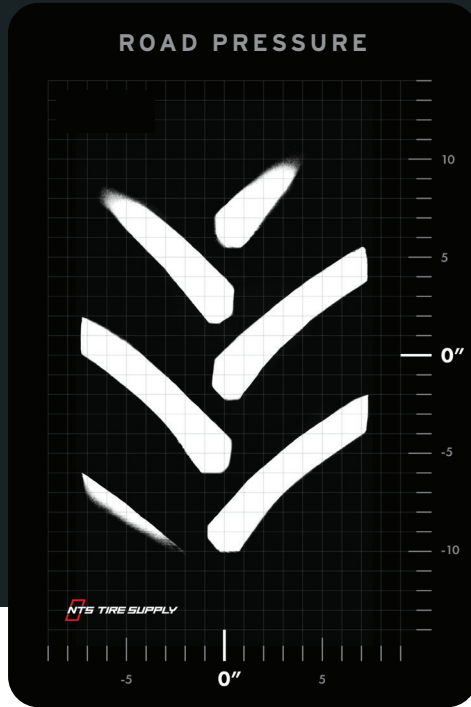

20% BETTER FUEL ECONOMY*

30% LESS SLIPPAGE*

You need more than 1 tire pressure for optimum performance every day.

35 PSI

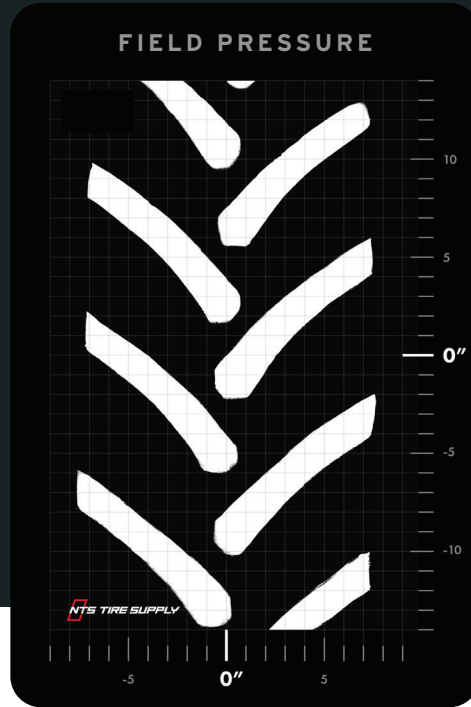

FOOTPRINT:
374 sq. in.*

FIELD PRESSURE

6 PSI

FOOTPRINT:
535 sq. in.*

ROAD PRESSURE

High PSI = Low Rolling Resistance

- ✓ Better Fuel Economy
- ✓ Longer Tire Life
- ✓ More Secure Handling

FIELD PRESSURE

Low PSI = Large Footprint

- ✓ Higher Yields & Less Compaction
- ✓ Faster Working Speeds
- ✓ Better Fuel Economy
- ✓ Improved Ride Quality

*Data provided by Michelin, PTG, and NTS Tire Supply.

PTG CENTRAL TIRE INFLATION SYSTEMS

Easy to operate. Lasts for 10,000 hours.
Works fast to keep your day moving.

✔ Compatible with Every Agricultural Tire

A CTIS works with all tire brands and sizes—singles, duals, or triples.

✔ No Time-Consuming Maintenance

Spend less than an hour on system maintenance each year.

✔ 10,000-hour System Life

Our system brand, PTG, has been around (mostly in Europe) for 30 years, and has a proven lifespan of 10,000 hours. Not keeping your machine for 10,000 hours? Transfer it to your next machine.

✔ Fast Inflation & Deflation

Keep moving as the system works. Inflate your tires in 3-5 minutes. Deflate in as little as 90 seconds.

✔ No Danger of a Flat or Overinflated Tire

You don't get a flat tire if an air line is punctured. And the system has safeties to prevent overinflation.

✔ Simple Controls

Control up to 3 inflation zones (2 tractor axles + implement) from the driver's seat using your tractor's ISOBUS monitor or PTG's digital controller.

CENTRAL TIRE INFLATION SYSTEMS

AIRBOX DRIVE

- ▶ External 2-Line System
- ▶ For All Axle/Hub Types

RDS DRIVE

- ▶ Internal 2-Line System
- ▶ For Bar Axles
- ▶ 10,000-hour Life

DIGITAL CONTROLLER

- ▶ 3 Pressure Zone Control
- ▶ Digital Tire Pressure View
- ▶ 1-Touch Field & Road Presets

ISOBUS CONNECTION

- ▶ 3 Pressure Zone Control
- ▶ Store 18 Machine Profiles
- ▶ Tire Pressure Monitoring & Speed Warnings

Extend Your Growth.
